

SDX ACCESSORIES

INDUSTRIAL SPRAY NOZZLES - SPRAY DRYING

There are several product accessories available for the SDX range including Cone Faced Bodies, Butt Weld Adaptors, Check Valves and Orifice Gauges.

CAPACITY CHARTS

SDX® Accessories

Cone Faced Body

These are designed to prevent build up on the front face of the nozzle body. Available in angles to suit individual applications.

Cone Faced Body Part Numbers

Nozzle	70°	80°	90°
SDX*	A203190010	A203190028	A203190036
SDX® III	W118820015	W118820023	W118820031
SDX® V	W196000019	W196000027	W196000035

Butt Weld Adaptor

We offer the butt weld adaptor in a range of standard pipe sizes, configurations and lengths, with custom designs available upon request. Ensure that adaptor welds are carried out to the appropriate safety approvals and standards.

Check Valves

There are several versions of non drip check valves available for the SDX range of nozzles, please contact the factory for further information.

Seal Kits

We supply seal kits for the SDX Nozzles in various materials. Each kit comprises of 10 of each seal. Delavan recommends that seals are changed after each run.

The O-Ring, otherwise known as toroidal seal, is an exceptionally versatile sealing device. Delavan supplied O-Rings are of the highest quality currently available on the market, and are specified specifically for our nozzle components. This data sheet offers Delavan O-Ring consumers a range of performance and compatibility data from our standard supply materials. We recognise that not all applications are suitable for these standard readily available materials and offer alternatives to suit individual applications on request. We are also able to offer FDA (Food and Drug Association) approved materials accompanied by a certificate.
